

Freight services

Consignments can be forwarded by air, sea and road throughout the world. Skilled assistance with forwarding problems is available in-house including both export and import as part of our dedicated client services.

BY ROAD

An Intimate knowledge of land based routes mean that **door-to-door groupage or full-load services** throughout the European continent can be offered. John Pipe International use various independent route specialists, which **speed deliveries, drive costs down and provide an all round customer service.** Assignments can be tracked throughout Europe.
